 **VERANDA**
LUXURY PONTOONS

the finest in luxury and performance

All of our boats are built on the same patented platform whether you are wakeboarding in luxury or fishing in style, our categories offer you a choice in luxury styling, yet the same superior performance and construction. You have chosen the finest in luxury, construction and performance.

Go ahead; with Veranda Luxury Pontoons you CAN have your cake and eat it too!! With the strength and security of the Patented All-Aluminum Inter-locking Deck System combined with the ultimate in styling and luxury, owners of Veranda Luxury Pontoons never have to choose between exhilarating performance and soothing relaxation. In fact, whether hitting the lake in preparation for the next wake board competition or taking a well-deserved break from the action, Veranda Luxury Pontoons' 2018 Wake Board Tower Models and VP Rear Chaise and Rear Facing Lounge Sport Models transport you to where water sport and pillow top comfort meet.

The summit is within reach! Each and every 2018 LUXURY MODEL provides passage to extravagant luxury and excitement. Built upon THE unequalled, unparalleled, PATENTED Inter-Locking Deck System, Veranda LUXURY MODELS deliver dawn to dusk entertainment with extensive and stimulating lists of best-in-class amenities. Whether the jaw dropping elegance of the VERTEX, the timeless and smooth lines of the RELAX, or the dual level, dual zone entertainment space of a VP HARD TOP, you will immediately appreciate the lavish detail built into each and every Veranda Luxury Pontoons LUXURY MODEL offering.

history

In 1966, innovation which birthed Veranda Luxury Pontoons was, quite fittingly, studied, learned, and refined within an old SCHOOL HOUSE located in a small community called Friendship. It was from these prophetic beginnings Xpress Boats, sister company to Veranda, championed and established the first series of our all-welded boat manufacturing processes. In the subsequent 52 YEARS, three generations of the founding family have continued to flourish, revolu-

tionize, and invest in these technologies and, in unison with successful PATENTING of our ALL-ALUMINUM INTER-LOCKING DECK SYSTEM, Veranda Luxury Pontoons began crafting the finest engineered pontoons in the luxury pontoons industry. Veranda's 2018 line-up of luxury pontoons and tri-toons remain the unequalled, unparalleled standard to which all other pontoon and tri-toon offerings should be compared and measured.

of luxury, quality, performance & enjoyment...

If you are reading this, then you have taken your valuable time to research the finest engineered platform in the luxury pontoon boating industry and I want to personally thank you.

Veranda Luxury Pontoons takes pride in the fact that our forefather, designed and manufactured the "Original" all-welded aluminum boat, 51 plus years ago, Xpress Boats. We set out to be innovative and original and we have successfully accomplished that with our patented all-aluminum interlocking deck system which will provide you with a lifetime of enjoyment. We often wonder why other manufacturers build in "predetermined obsolescence", when we guarantee our patented deck for a lifetime.

Today, we are still family owned, family operated and proud to introduce our 2018 line of luxury pontoons for your consideration.

Rory A Herndon
President

Lifetime of enjoyment is our commitment and your assurance that you have chosen the finest platform in the luxury pontoon industry. Couple that with the finest, most beautifully appointed upholstery and best-in-class components, powered by the most quiet & powerful Yamaha Outboard, there is no reason not to own a Veranda Luxury Pontoon.

Elegance, beauty and confidence knowing you have chosen the finest deck system in the industry with exquisite marine grade, quality, vinyl treated with anti-fungal and antibacterial additives to retard mildew and bacterial growth by-products. Our polyurethane foam is treated as well to inhibit fungal growth and should pass all standard anti-fungal and anti-bacterial standards. Since Veranda Luxury Pontoons guarantees its boats to be wood free, the worries of your substructure or frame base mildewing and rotting is a non issue, other manufacturer cannot claim.

Don't you deserve the very best, one that will last you a lifetime? We believe so, which is why we have a lifetime guarantee on our decking. Please join us as we introduce our 2018 line of Luxury Pontoons.

IMPORTANT:

When choosing a luxury pontoon, the information contained on these 2 pages will be the most valuable intel you can arm yourself with while comparing brands. This is our commitment and your assurance you will not find a finer built foundation to build your luxury pontoon on, anywhere. Although our competitors will tell you a multitude of Myths, we want you to know the facts.

DIFFERENCE THE VERANDA LUXURY PONTON

PATENTED : ALL ALUMINUM DECK...

All aluminum is a great way to say, NO WOOD and NO ROT. Veranda Luxury Pontoons uses the finest quality aluminum to produce each pontoon boat deck ensuring a lifetime of trouble free fun.

PATENTED: ALL WELDED INTERLOCKING DECK

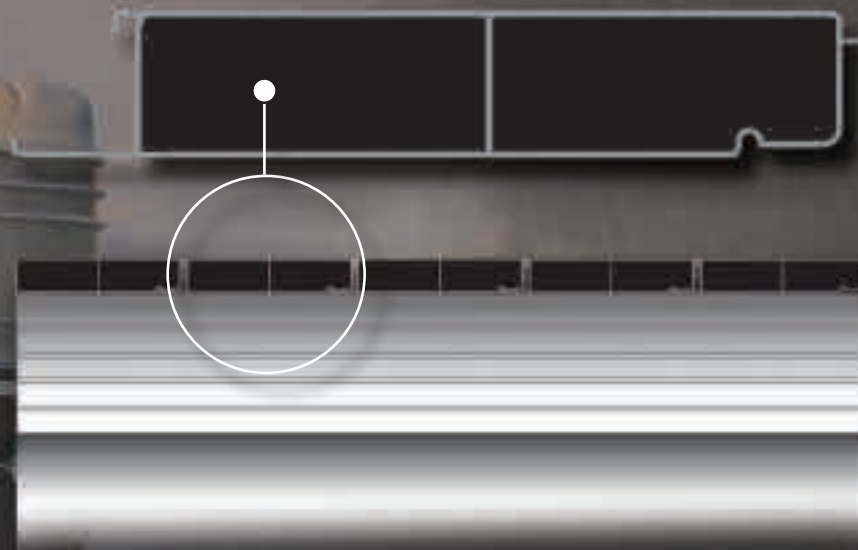

Each 2x6 plank is engineered to interlock together. After the planks are interlocked, they are welded directly to brackets that run the full length of each pontoon. This uni-body construction creates a solid foundation that eliminates flex and noise often seen on the competition's screw together decks.

PATENTED: EXTRUDED ALUMINUM PLANK

Veranda's patented aluminum planks are extruded, creating hollow chambers inside. These chambers reduce weight and allow for aeration of the deck surface keeping it cool during the hot summer months. The competition's wood deck can hold moisture and increase in weight over time.

PATENTED INTERLOCKING DECK LIFETIME STRUCTURAL WARRANTY

PATENTED ALL ALUMINUM DECK ALUMINUM MOUNTING SURFACE

Veranda's aluminum structure provides a durable foundation to attach all railing, seating, and other components to. Fasteners attached to the competition's wood structure are more likely to break away or loosen over time.

CHAMBERED PRESSURE TESTED PON- TOONS ENCLOSED M-DECK BRACKETS

Veranda's pontoons are large in diameter and provide maximum flotation. Each pontoon has up to 5 structural baffles to provide added strength and rigidity. The m-deck brackets which attach the pontoon to the decking are capped and are welded over the end cap to provide superior support and strength eliminating stress caused by today's large outboard engines.

THE MYTHS & THE FACTS

WHAT THE COMPETITION DOES NOT WANT YOU TO KNOW!

MYTHS crafted by anxious, worried, and troubled competitors of Veranda Luxury Pontoon

1

MYTH

Anxious competitors want you to believe "Veranda Luxury Pontoon's decks get hotter than theirs"...

FACT

TRUTH IS, unlike wood decks built by our anxious competitors, decks that can absorb moisture and actually rot, Veranda Luxury Pontoon decks are engineered and constructed with extruded all-aluminum planks which allow for movement of air, air which can actually work to cool our PATENTED ALL-ALUMINUM INTERLOCKING DECK SYSTEM

2

MYTH

Worried competitors want you to believe "Veranda Luxury Pontoon's are noisy"

FACT

TRUTH IS, pretty much nothing could be further from the truth! NO Wood NO Screws NO Cross members Veranda Luxury Pontoon's PATENTED ALL-ALUMINUM INTERLOCKING DECK SYSTEM, engineered and constructed without screws and without cross members, actually eliminates the very noise our worried competitors knowingly create by their own use of wood, screws, and cross members.

3

MYTH

Troubled competitors want you to believe "Veranda Luxury Pontoon's ride rough"

FACT

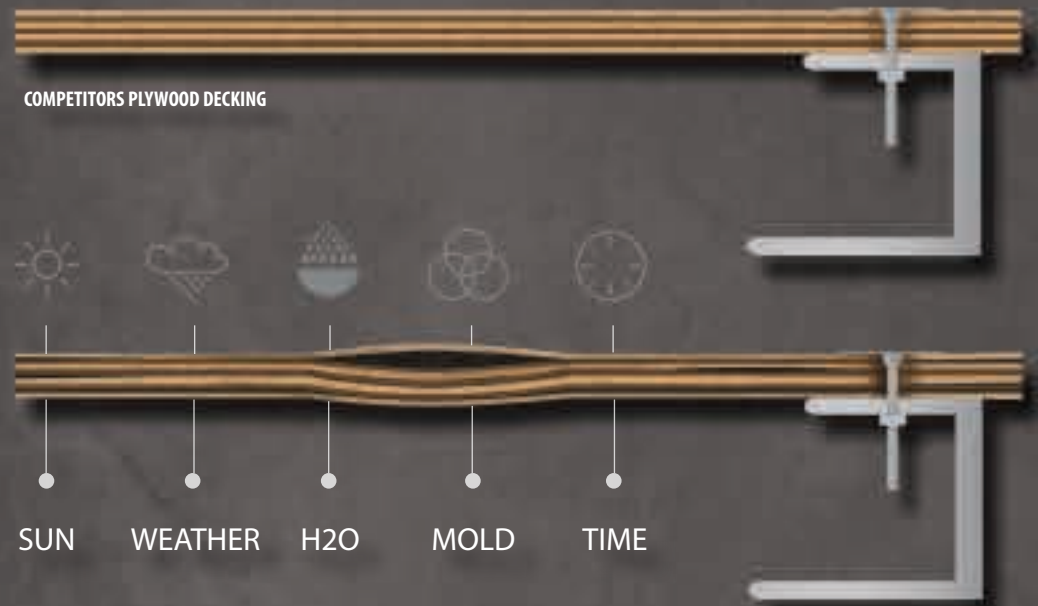

TRUTH IS, Unlike competitor's decks obstructed by cross member construction, the PATENTED ALL-ALUMINUM INTERLOCKING DECK SYSTEM of each and every Veranda Luxury Pontoon is engineered and constructed with a smooth underside, free and clear of these obstructions. This smooth surface reduces water drag and eliminates all surging which can result from cross members. Troubled competition tries to achieve this feature by offering an optional, riveted skin of aluminum on the bottom of their cross members; skin which can trap moisture and actually accelerate wood rot.

THE COMPETITORS DECK VERSUS VERANDA LUXURY PONTOONS DECK:

WOOD DECK SYSTEM V PATENTED ALL ALUMINUM INTERLOCKING DECK SYSTEM

Compared to our Competitors "Predetermined Obsolescence" use of wood, Veranda's no-wood "Lifetime of Enjoyment" construction featuring our patented all-aluminum interlocking deck system clearly illustrates that Veranda Luxury Pontoon's is the best choice!

At the time of purchase, all of our competitors decks are plywood, void of moisture, rot, or mold. However, over time this substrate deteriorates, absorbs countless gallons of water, begins the rotting process, separates and begins to mold. As illustrated, a bigger bolt through plywood does not constitute a stronger foundation, it just puts a bigger hole in a porous substrate, don't you deserve the assurance you are purchasing the most, the best for your investment.

- PLYWOOD SURFACE OFFERS WEAK MOUNTING SURFACE
- MORE BOLTS, MORE ACCESS FOR MOISTURE
- PROTRUDING CROSS MEMBERS INCREASE DRAG
- DECREASED STABILITY OVERTIME

- INCREASED WEIGHT
- INCREASED PROBABILITY OF MOLD GROWTH
- INCREASED NOISE
- M BRACKETS ARE LEFT OPEN

NO WOOD, NO ROT, NO MOLD, LIFETIME OF ENJOYMENT

PERFORMANCE PERSONIFIED!

performance

1

GREATER

CAPACITY & INCREASED HORSEPOWER CAPABILITY

Veranda Luxury Pontoons Performance Packages are available with 25" diameter or 27" diameter pontoons. These larger diameter pontoons will carry more of your friends and family as well as that larger horsepower engine you have been longing for.

2

GREATER

LIFT & LESS RESISTANCE

Veranda Luxury Pontoons Performance Packages include (4) lifting strakes and our exclusive Hyper-Lift® style engine pod running surface to create superior bow lift. These features in combination with VLP's patented integrated wave shield design reduce water resistance putting it out ahead of the competition in speed, fuel efficiency, and ride quality.

3

GREATER

MANEUVERABILITY

Veranda Luxury Pontoons Performance Packages are equipped with UFLEX hydraulic steering and can be upgraded to the ULTRA-FLEX Power Steering making handling the tightest of turns easy for any member of the family.

4

GREATER

SPEED

Veranda Luxury Pontoons Performance Packages in combination with our Patented Aluminum Interlocking Deck System ensure you will be out in front. Don't just take our word for it. Schedule your test drive today.

Black metallic panels with Copper powder coated rails

FISHING SERIES – F4

Veranda's F4 series is designed with the family fisherman in mind. Four corner fishing chairs give you ample room to spread out and cast care free. After catching your limit, you can rest easy knowing the F4 vinyl floor ensures an easy wash out before putting her up for the day. The Veranda Luxury Pontoon patented inter-locking deck system, rod box, livewell, and fish finder are just a few of the features that make the F4 the clear choice among fishing pontoons.

YAMAHA

Quiet, Clean, Efficient

THE PERFECT COMBINATION: VERANDA LUXURY PONTOONS, YAMAHA OUTBOARDS

Veranda Luxury Pontoons has chosen Yamaha Outboards to compliment their wonderful line of boats.

Whether it be an evening cruise with the family or friends, or trying to catch that fish of a lifetime Yamaha Outboards will give you a turn-key reliability and efficiency you deserve.

Luxury, performance and quality coupled with a lifetime of enjoyment equals the right motor, right boat, right decision.

BACKTRACK® TRAILERS

Veranda Luxury Pontoons proudly offers an industry superior all aluminum, all welded trailer. Backtrack® Trailers are as attractive as they are rugged, each trailer is custom built to cradle your Veranda with treated bunks to assure that your pontoon is transported safely and securely. To customize your trailer you can add optional features like a spare tire and all aluminum mount, brakes on the second axle of the tandem, LED lights and even a swing away tongue. Backtrack® Trailers are designed exclusively for Veranda Luxury Pontoons and are second to none in quality, craftsmanship and durability.
